CURRENT FISCAL YEAR ENDS 31 October 2021

FOUNDED 1967 FIRST PUBLIC **OFFERING** 1974

~14,300* active patents

*As of fiscal year ended 10/25/20. TTM is trailing twelve months

Q2 Fiscal 2021

Record quarterly revenue and non-GAAP earnings

Strong execution and margin expansion

Buyback authorization and dividend rate increased; buyback program resumed

2021 Outlook

Strong demand for semi equipment and services

Foundry-logic and DRAM markets growing fastest

Strong demand for Applied's leadership products

Strength in ICAPS* and advanced packaging

Longer Term

Multi-year growth drivers for semi firmly in place

Digital transformation of economy accelerating

Semiconductor and equipment industries being driven structurally higher

STRONG MARKET AND BUSINESS OUTLOOK

^{*} IoT, communications, automotive, power and sensors applications

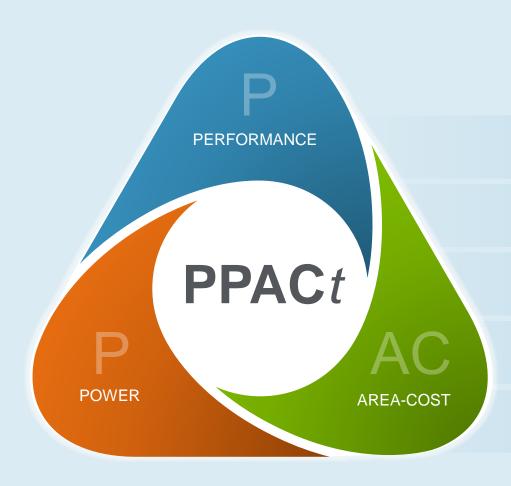

Investment Thesis

Market Outlook = Innovation and Secular Growth

High ROI Financial Model + Attractive Shareholder Returns

Appendix GAAP to Non-GAAP Reconciliations

Use of Non-GAAP Adjusted Financial Measures

Applied provides investors with certain non-GAAP adjusted financial measures, which are adjusted for the impact of certain costs, expenses, gains and losses, including certain items related to mergers and acquisitions; restructuring and severance charges and any associated adjustments; certain incremental expenses related to COVID-19; impairments of assets; gain or loss on strategic investments; loss on early extinguishment of debt; certain income tax items and other discrete adjustments. On a non-GAAP basis, the tax effect related to share-based compensation is recognized ratably over the fiscal year. Additionally, non-GAAP results exclude estimated discrete income tax expense items associated with U.S. tax legislation. Reconciliations of these non-GAAP measures to the most directly comparable financial measures calculated and presented in accordance with GAAP are provided in the appendix to this presentation and on Applied's website, https://ir.appliedmaterials.com/.

Management uses these non-GAAP adjusted financial measures to evaluate the company's operating and financial performance and for planning purposes, and as performance measures in its executive compensation program. Applied believes these measures enhance an overall understanding of its performance and investors' ability to review the company's business from the same perspective as the company's management and facilitate comparisons of this period's results with prior periods on a consistent basis by excluding items that management does not believe are indicative of Applied's ongoing operating performance. There are limitations in using non-GAAP financial measures because the non-GAAP financial measures are not prepared in accordance with generally accepted accounting principles, may be different from non-GAAP financial measures used by other companies, and may exclude certain items that may have a material impact upon our reported financial results. The presentation of this additional information is not meant to be considered in isolation or as a substitute for the directly comparable financial measures prepared in accordance with GAAP.
